2.3.1 Should any Practice session be disrupted the Clerk of the Course shall not be obliged to resume or re-run the session, the decision of the Clerk of the Course shall be final.

2.3.2 Each driver shall be allowed a minimum of 3 practice laps (NCR Ch.16B App.6 Art.7.1 5 applies)

2.4 Races

2.4.1 Each round will consist of practice, up to three Heats, Semi-Finals and Final, with the exception of Lydden Hill (November) where should any session take place under floodlights, a familiarisation lap will take place immediately prior to the start. The organisers reserve the right not to run Practice on the second day of a double header weekend.

2.4.2 A joker lap will be used where the circuit track licence allows. This will be advised in Final Instructions or Official Bulletin. In each Heat, Semi-Final or Final, one of the laps must be the Joker Lap. In the Heats any driver who does not take the joker lap will receive a penalty of 30 seconds. In a Semi-Final or Final any driver who does not take the Joker Lap will be classified last in that race. Two Judges of Fact will be appointed to note the numbers of the cars passing through (one Judge of Fact where there is a timing loop in the Joker Lap). At the exit of the Joker Lap, the cars on the main track have priority. (see NCR Ch.16B App.6 Art.2.2).

2.4.3 All categories will start Heats in 3-2-3 format up to the maximum allowed by the Track Licence. In all cases the decision of the Clerk of the Course is final, grid format may be amended at the discretion of the Clerk of the Course. Grids for Semi-Finals and Finals will have a maximum of eight starters in 3-2-3 format (subject to the exception provided in 2.6.1).

2.4.4 The grids for the first Heats will be determined by random draw. The grids for the second Heats will be based on the result of the first Heat, the grids for the third Heats will be based on the result of the second Heat and the grid for the fourth Heats will be based on the result of the third Heat. (i.e., the fastest driver in Heat one will be on pole for the last race for the second Heat. The second fastest will be in second grid slot in the last race, etc). Where there are two or more races per Heat, the number of starters will be split as equally as possible over the races run.

2.4.5 Heats will be run over 4 laps, Semi-Finals will run over 5 laps, and Finals will be run over six laps. Race length may be changed at the discretion of the Clerk of the Course.

2.4.6 If there are fewer than 10 entries in a Championship or class, the Clerk of the Course may run combined races in Heats and Finals for those cars. Any such amalgamation will be detailed in Final Instructions or other Bulletins.

2.4.7 Should any Heat, Semi-Final or Final be disrupted, the Clerk of the Course shall not be obliged to resume or re-run the session.

2.5 Heat points

2.5.1 All the Heats will be timed, and the fastest Driver in each Heat will be awarded 50 points, the second fastest 45 points, the third fastest 42 points, the fourth fastest 40 points, the fifth fastest 39 points, the sixth fastest 38 points, the seventh fastest 37 points, and so on.

2.5.2 Those Drivers who did not complete a Heat (DNF) will be credited with a total of points equal to the number of points that the slowest Driver would be given, less one point, supposing that all the starters in the Competition were classified.

Those Drivers who did not start the Heat (DNS) and those Drivers who were disqualified (DSQ) from the Heat will not be credited with any points. In the event that two or more Drivers achieve equal times, they will be separated according to their best lap time during the Heat concerned.

If a race is restarted, a Driver who started in the first or subsequent starts, but was not able to start in the Heat that was completed, will be shown as DNF instead of DNS and will be credited with the appropriate number of points

2.5.3 After the Heat, there will be an Intermediate Classification according to each Driver's total points scored in the Heats. In the event of tied positions in the intermediate classification, precedence will be given to the Driver who had the greater number of first places, then second places, then third places, etc., achieved in all the Heats. In the event of further tie, precedence will be given to the Driver who was the fastest in the last Heat. To appear in this Intermediate Classification, a Driver must have crossed the finish line having completed the same number of laps as the winner and been duly classified in at least one Heat.

2.5.4 Semi-Finals will only be run if there are a minimum of 10 qualifiers able to participate. 2.6 Finals

2.6.1 The 16 top scoring drivers in the Intermediate Classification will qualify for the Semi-Finals. The winner, second, third and fourth place driver in each Semi-Final will qualify for the Final. The Semi-Finals will only be run if there are at least 10 cars able to participate a minimum of five cars per Semi-Final; if the Semi-Finals are not run, the nine top-scoring drivers in the Intermediate Classification will progress directly to the Final.

2.6.2 From the Intermediate Classification, drivers placed in positions 1,3,5,7,9,11,13 & 15 will start in Semi-Final one. Drivers placed in positions 2,4,6,8,10,12,14 & 16 will start in Semi-Final two.

2.6.3 Of the two Semi-Final winners, the one placed higher in the Intermediate Classification will start the Final from pole, with the other starting second. The remaining grid places will be taken by the two second placed **drivers classified finishers**, the two third placed **drivers classified finishers** and the two fourth place **drivers classified finishers** (in each case the position in the Intermediate Classification which will determine which of each pair starts ahead of the other except that a **classified** finisher will take precedence over a DNF in

the Semi-Final). A driver who did not start a Semi Final (with the exception provided in NCR Ch.16B App.6 Art.8.13) will not be permitted to start the Final and will be replaced with a reserve in accordance with Art 2.6.4.

- 2.6.4** Reserves – Should any of the Semi-Final or Final qualifiers be unable to take their place on the grid, the other starters in the race will move up and the last place on the grid will be taken by the next qualifier able to start. In the Semi-Finals, that means those from seventeenth down in the Intermediate Classification. In the Final that means the highest placed in the Intermediate Classification (except that a **classified** finisher will take precedence over a DNF in the Semi-Final) of the two fifth-place finishers from the Semi-Finals, then the other of the fifth-place finishers. If neither of the fifth-place finishers are able to start, the same method between the two sixth-place finishers, etc.
- 2.6.5** Should a competitor not be present and ready to race when the race is ready to be released from pre-grid, then the next placed qualifier may be allowed to start.
- 2.7 Starts**

- 2.7.5** Cars must be within 120mm of the grid line at the start of the race.
- 2.7.6** Any Drivers unable to start a session must inform the Secretary of the Event in good time before that race.
- 2.7.7** All cars will be released from the Pre-Grid to form up on the grid prior to the start in formation as specified on the grid sheet.
- 2.7.8** The start will be via a Standing start. Drivers will be shown a “Ready to Race” sign to indicate that the start is imminent. The signal for the Heat, Semi-Final or Final start will be the Green Lights coming on. A car will be considered to have started the race once it has crossed its start line, following the successful start and under its own power. In the event of a false start there will be flashing Red Light and the start procedure will be undertaken again.
- 2.7.9** In the event of any starting lights failure, the Starter will revert to use of the National Flag once all competitors have been advised of the fact.
- 2.7.10** The Event Organisers reserve the right to amend this start procedure via a Bulletin issued to all Competitors. This may involve changing the method of starting and/or the countdown procedure leading up to the start signal being given.
- 2.7.11** Electronic beams, or similar devices, will be used in conjunction with starting lights to detect false starts. These will be monitored by a Judge of Fact. When a false start occurs in a Heat, a Semi-Final or Final, all Drivers will return to their original starting position and the starting procedure will begin again. The Driver (s) who caused the false start must pass through the Joker Lap section twice in the session concerned (at a circuit with no Joker Lap, a Driver who causes a false start will be placed on an additional row at the back of the grid for the re-start). If any competitor commits a second false start they will be removed from the grid and not permitted to start and will be **classified-as** disqualified (DSQ) from the session concerned.

- 2.7.12 The Clerk of Course may order a complete restart if they consider there to have been a faulty start.
- 2.7.13 In the event of the electronic equipment failing, a Judge of Fact, who will be named, will adjudicate on all starts. This may include instances where the lights do not lock, but a jump-start is evident.
- 2.7.14 Competitors are reminded that in accordance with NCR Ch.16B App.6 Art. ~~7.7~~ ~~5.5~~ the spinning of wheels (tyre cleaning) before the start is only permitted in the designated area clearly defined on the Track licence and should be under supervision of the start Marshals. It cannot be performed when a Marshal or any other person is standing in front of or behind the Vehicle.
- 2.8 Session Red Flag**
- 2.8.1 Should the need arise to stop any session, Red flags will be displayed at the Startline and at all Marshals Signalling Points around the Circuit. This is the signal for all Drivers to cease circulating at racing speeds, to slow to a safe and reasonable pace and to drive to Parc Fermé or the starting grid area, as directed by officials. No work may be carried out on any car unless authorised by the Clerk of the Course or Scrutineer. Any car that returns to the Paddock will be considered to have retired from the race.
- 2.8.2 NCR Ch.16B App.6 Art. ~~8.8 to 8.18~~ ~~6.5 to 6.15~~ inclusive shall apply
- 2.8.3 In a race where the time taken for the full distance is integral to calculating its results (e.g. Heats), the session will be restarted over the full distance
- 2.8.4 Where finishing position is used in calculating the result of the session (e.g. Semi-Final or Final) and the session has completed at least four laps, the result may be declared in accordance with NCR Ch.16B App.6 Art. ~~8.14~~ ~~6.11~~. Drivers who have not completed the Joker Lap will have a notional time added to their recorded time for the laps completed before the final order is calculated. This fixed notional time will be the average difference of the fastest lap time and the Joker Lap time of the Top 5 drivers in the last session. Where one or more of the Top 5 Drivers has taken the Joker Lap on the first lap of their session, their time will be disregarded and the time of the next fastest Driver (who has not taken the Joker Lap in the first lap of the session) will be considered instead. The resulting notional time will be rounded up to the nearest tenth of a second. The fixed notional time will be published together with the results of the last Heat.

All cars must comply fully with the current NCR Ch.7 and NCR Ch.16B App.10 9 and these regulations.

5.2 General Description

The Championship is only open to the 1586cc Suzuki Swift Sport (2006 to 2011).

Cars must comply with the Technical Regulations published by the Organisers for The Championship throughout official practice, Heats, Semi-Finals and Finals.

5.2.2 Examination of Vehicles

Competitors must be prepared, with tools and spare parts as necessary, to enable dismantling, removal and inspection of components, or to have any component(s) sealed at the circuit for later inspection by an Eligibility Scrutineer at the competitor's expense.

5.2.2.2 Upon such election being made, the competitor shall immediately place the car under the control of the Organisers and be deemed to have permitted all such scrutineering, examination and testing as the organisers may responsibly require to undertake. - c) Seal the car and its components in such a manner as they may choose and require the competitor at their own expense to present the car at any other premises chosen by the Organisers for detailed examination within a specified period and/or remove the car by transporter at no expense to the competitor to an appointed location. The competitor will be advised in writing of the time, date and location of the subsequent testing or eligibility examination.

5.2.2.3 The stripping of the engine or any required component will be undertaken by the competitor and/or mechanic/technician nominated by the competitor at the premises designated and overseen by an appropriately licenced Motorsport UK Scrutineer.

5.2.2.4 Competitors will be personally and solely responsible for ensuring that their cars comply with their registration details and with these regulations for each event at which they are entered. Failure to comply in either respect will be a breach of these regulations. Queries concerning eligibility should be referred in writing to the Organisers or the Eligibility Scrutineer at least seven days prior to an Event entered, to permit a written ruling in advance of any Event at which it is intended to compete.

5.2.2.5 All cars must be presented in a good condition, clean and tidy with any damage from a previous round removed or repaired.

Random eligibility checks will be made at any Event and engine/gearbox assemblies checked or sealed for subsequent checking by the nominated Championship Scrutineer. All eligibility costs must be covered by the competitor.

The top 4, and any other nominated competitors, will be required to have all engines and gearboxes, used during the season, stripped, and checked for eligibility, by the Championship Eligibility Scrutineer. APPENDIX THREE

What Is Race with Respect?

The National Governing Body's Respect Code champions a **high standard of behaviour** from everyone within the motorsport community underpinned by our commitment to make motorsport an inclusive and safe sport for everyone, across all levels of motorsport.

The Respect Code will help to grow and strengthen the sport by making it **accessible and welcoming for everyone** and we cannot stress enough how important it is that it is embraced by all participants.

Ultimately Motorsport UK will deal with cases of disrespect, however **Clubs and Championships have an integral role to play** in the positive enforcement of the Respect Code and subsequently in dealing with poor behaviour in the initial phases. The range of actions that can be taken in response to deliberately disrespectful behaviour start with helping the individual understand why their behaviour is below the standard expected and can be escalated as needed.

A recorded verbal warning will be the basic level of penalty and in extreme cases disqualification from the Club or Championship and also onward referral to Motorsport UK. It is important that we have a **meaningful process** for handling and where appropriate, penalising breaches of the Code.

This in no way replaces the usual judicial process and is set apart from that. However, it may need to be considered in parallel to that process if the behaviour is, for example, deemed disrespectful, whilst appreciating that on event incidents can and will occur.

Utilising this campaign we can **educate, engage and support** the community in situations where needed. Although Motorsport UK will not hesitate to hold people accountable for their behaviour where necessary.

Whether you are a Competitor, Parent, Official, Marshal, Team Manager, Mechanic, Spectator or any other participant in the Event it is incumbent on us all to **Respect our fellow participant** and to **'call out' poor standards of behaviour**.
