The remaining grid places will be taken by the two second placed **drivers**, the two third placed **drivers** and the two fourth place **drivers** (in each case the position in the Intermediate Classification which will determine which of each pair starts ahead of the other except that a finisher will take precedence over a DNF in the Semi-Final). **A driver who did not start a Semi Final (with the exception provided in NCR Ch.16B App.6 Art.8.13) will not be permitted to start the Final and will be replaced with a reserve in accordance with Art 2.6.4.**

2.7.11 Electronic beams, or similar devices, will be used in conjunction with starting lights to detect false starts. These will be monitored by a Judge of Fact. If a competitor false starts, they will be placed on an additional row behind the standard grid. If any competitor commits a second false start they will be removed from the grid and not permitted to start and will be disqualified from the race concerned.

2.7.12 The Clerk of Course may order a complete restart if they consider there to have been a faulty start.

2.7.13 In the event of the electronic equipment failing, a Judge of Fact, who will be named, will adjudicate on all

starts. This may include instances where the lights do not lock, but a jump-start is evident.

2.7.14 Competitors are reminded that in accordance with NCR Ch.16B App.6 Art.7.7 the spinning of wheels (tyre cleaning) before the start is only permitted in the designated area clearly defined on the Track licence and should be under supervision of the start Marshals. No work may be carried out on any car unless authorised by the Clerk of the Course or Scrutineer. Any car that returns to the Paddock will be considered to have retired from the race.

2.8.2 NCR Ch.16B App.6 Art.8.8 to 8.18 inclusive shall apply

2.8.3 In a race where the time taken for the full distance is integral to calculating its results (e.g. Heats), the session will be restarted over the full distance

2.8.4 Where finishing position is used in calculating the result of the session (e.g. Semi-Final or Final) and the session has completed at least four laps, the result may be declared in accordance with NCR Ch.16B App.6 Art.8.14. Drivers who have not completed the Joker Lap will have a notional time added to their recorded time for the laps completed before the final order is calculated. This fixed notional time will be the average difference of the fastest lap time and the Joker Lap time of the Top 5 drivers in the last session. Where one or more of the Top 5 Drivers has taken the Joker Lap on the first lap of their session, their time will be disregarded and the time of the next fastest Driver (who has not taken the Joker Lap in the first lap of the session) will be considered instead. The resulting notional time will be rounded up to the nearest tenth of a second. The fixed notional time will be published together with the results of the last Heat.

5. TECHNICAL REGULATIONS

5.1 Introduction

The following Technical Regulations are set out in accordance with the Motorsport UK specified format, and it should be clearly understood that if the following texts do not clearly specify that you can make a modification you should work on the principle that you cannot. All vehicles must comply fully with NCR Ch.7 and NCR Ch.16B App.10 – Technical Regulations – Rallycross Vehicles and for Spaceframe rallycross cars NCR Ch.16B App 11 and these regulations.

5.2 General Description

5.2.1 The Retro Rallycross Championship is for 2-wheel drive cars that have, or a type that have been used in British or European Rallycross only using technology and materials that were available and in use in rallycross up to the end of 31 December 1991 in the following classes:

Retro	All two-wheel drive rallycross vehicles eligible to compete within the specified period with the maximum engine capacity of 1659 cc
Super Retro	All two-wheel drive rallycross vehicles eligible to compete within the specified period over 1660 cc.

The onus to demonstrate the eligibility of a car and any modifications rests with the competitor.

5.2.2 Examination of Vehicles

5.2.2.1 The organisers (in addition to any other powers they may have under these Regulations) reserve the right before or after any race in the Championship to designate any one or more of the competing cars for special eligibility scrutineering. Competitors must be prepared, with tools and spare parts as necessary, to enable dismantling, removal and inspection of components, or to have any component(s) sealed at the circuit for later inspection by an Eligibility Scrutineer at the competitor's expense.

5.2.2.2 Upon such election being made, the competitor shall immediately place the car under the control of the Organisers and be deemed to have permitted all such scrutineering, examination and testing as the organisers may responsibly require to undertake. The organisers, Eligibility Scrutineer and any person appointed by him have the right to:

- Examine the car at the circuit for such period as they may reasonably require and take fuel and/or other samples and/or
- Retain the car for detailed examination at premises chosen by the organisers. If the organisers elect to retain the car, they shall make it available for collection by the competitor at least seven days prior to the qualification session for the next race in the Championship unless the car is found to be in breach of these regulations and/or
- Seal the car and its components in such a manner as they may choose and require the competitor at their own expense to present the car at any other premises chosen by the Organisers for detailed examination within a specified period and/or remove the car by transporter at no expense to the competitor to an appointed location. The competitor will be advised in writing of the time, date and location of the subsequent testing or eligibility examination.

5.2.2.3 The stripping of the engine or any required component will be undertaken by the competitor and/or mechanic/technician nominated by the competitor at the premises designated and overseen by an appropriately licenced Motorsport UK Scrutineer.

5.2.2.4 Competitors will be personally and solely responsible for ensuring that their cars comply with their registration details and with these regulations for each event at which they are entered. Failure to comply in either respect will be a breach of these regulations. Queries concerning eligibility should be referred in writing to the Organisers or the Eligibility Scrutineer at least seven days prior to an event entered, to permit a written ruling in advance of any Event at which it is intended to compete.

APPENDIX ONE

What Is Race with Respect?

The National Governing Body's Respect Code champions a **high standard of behaviour** from everyone within the motorsport community underpinned by our commitment to make motorsport an inclusive and safe sport for everyone, across all levels of motorsport.

The Respect Code will help to grow and strengthen the sport by making it **accessible and welcoming for everyone** and we cannot stress enough how important it is that it is embraced by all participants.

Ultimately Motorsport UK will deal with cases of disrespect, however **Clubs and Championships have an integral role to play** in the positive enforcement of the Respect Code and subsequently in dealing with poor behaviour in the initial phases. The range of actions that can be taken in response to deliberately disrespectful behaviour start with helping the individual understand why their behaviour is below the standard expected and can be escalated as needed.

A recorded verbal warning will be the basic level of penalty and in extreme cases disqualification from the Club or Championship and also onward referral to Motorsport UK. It is important that we have a **meaningful process** for handling and where appropriate, penalising breaches of the Code.

This in no way replaces the usual judicial process and is set apart from that. However, it may need to be considered in parallel to that process if the behaviour is, for example, deemed disrespectful, whilst appreciating that on event incidents can and will occur.

Utilising this campaign we can **educate, engage and support** the community in situations where needed. Although Motorsport UK will not hesitate to hold people accountable for their behaviour where necessary.

Whether you are a Competitor, Parent, Official, Marshal, Team Manager, Mechanic, Spectator or any other participant in the Event it is incumbent on us all to **Respect our fellow participant** and to **'call out' poor standards of behaviour**.
